James, I need your team to lead a summary of EPA authorities to conduct community buy-outs as requested by the citizens of Mossville. I don't immediately recall our statutory or regulatory authorization to buy-out individuals. I know Region 6 conducted a Congressionally authorized buy-out related to Tar Creek due to subsidence threats from mines collapsing in the area. I also seem to recall a couple of permanent relocations but we need to fully research this topic. I suspect that this has been done before so there should be some historical write up.

David
